

Chatsworth | New England Leather

Specification Sheet

Every hide tells a story, and this one speaks of tradition, refinement, and enduring quality. Selected from Europe's finest, each piece carries the hallmarks of excellence: rich tonal variations, a soft pull-up effect, and a depth that shifts subtly with light and movement. These natural nuances aren't imperfections; they're the signature of authenticity. This is leather as it was meant to be: classic, characterful, and crafted to age beautifully.
